

Leanium™ 22% Starter

Product Description

Leanium 22% Starter is a complete starter to be fed as the sole diet to pigs from 3 weeks (13-15 lb.) to 40 lb body weight.

Features and *Benefits*

The exclusive Kent Flav-R-Ized process and small, 1/8" mini pellet **improves the palatability of the diet so pigs eat at an early age. You can be sure your baby pigs get all the needed nutrition at this early age.**

Leanium 22% Starter guaranteed vitamin levels are extra important in the first weeks of the pig's life. **By guaranteeing the levels, you can be sure your new pigs will have adequate levels to help them through this time of stress.**

The formulation in Leanium 22% Starter **will give you exceptional**

Flav-R-Ized®

Leanium® 22% Starter L200

Medicated

A complete starter feed for pigs weighing 13 to 40 pounds.

For reduction in the severity of swine mycoplasma pneumonia caused by *Mycoplasma hyopneumoniae*.

ACTIVE DRUG INGREDIENT

Lincomycin (as lincomycin hydrochloride)200 g/ton

Caution

Occasionally, swine fed lincomycin may, within the first 2 days after the onset of treatment, develop diarrhea and/or swelling of the anus. On rare occasions, some pigs may show reddening of the skin and irritable behavior. These conditions have been self-correcting within 5 to 8 days without discontinuing the lincomycin treatment.

Do not allow rabbits, hamsters, guinea pigs, horses or ruminants access to feeds containing lincomycin. Ingestion by these species may result in severe gastrointestinal effects.

Not to be fed to swine that weigh more than 250 pounds.

Flav-R-Ized®

Leanium® 22% Starter

For pigs weighing 13 to 40 pounds.

GUARANTEED ANALYSIS

Crude Protein, min.	22.0%
Lysine, min.	1.45%
Crude Fat, min.	5.5%
Crude Fiber, max.	3.8%
Calcium (Ca), min.	0.8%
Calcium (Ca), max.	1.3%
Phosphorus (P), min.	0.65%
Salt (NaCl), min.	0.3%
Salt (NaCl), max.	0.8%
Selenium (Se), min.	0.3 ppm
Zinc (Zn), min.	1,500 ppm
Vitamin A, min.	4,500 IU/lb
Vitamin D ₃ , min.700 IU/lb
Vitamin E, min.30 IU/lb
Menadione, min.2 mg/lb
Riboflavin, min.5 mg/lb
Niacin, min.30 mg/lb
d-Pantothenic Acid, min.25 mg/lb
Vitamin B ₁₂ , min.	0.016 mg/lb

INGREDIENTS

Ground Corn, Feeding Oat Meal, Dried Whey, Dried Cheese Product, Cane Sugar, Soybean Meal, Animal Fat, Fish Meal, Animal Plasma, Serum Globulin, Animal Serum, Lactose, Corn Distillers Dried Grains with Solubles, Calcium Carbonate, Monocalcium Phosphate, Dicalcium Phosphate, Salt, L-Threonine, L-Tryptophan, DL-Methionine, L-Lysine, Yucca Schidigera Extract, Yeast Culture, Irradiated Dried Yeast, Vitamin A Acetate, Cholecalciferol (source of Vitamin D₃), Vitamin E Supplement, Menadione Dimethylpyrimidinol Bisulfite (source of Vitamin K Activity), Riboflavin Supplement, Niacin Supplement, Calcium Pantothenate, Vitamin B₁₂ Supplement, Choline Chloride, Folic Acid, Biotin, Pyridoxine Hydrochloride, Natural and Artificial Flavors Added, Zinc Methionine, Copper Amino Acid Complex, Manganese Amino Acid Complex, Potassium Chloride, Manganese Sulfate, Ferrous Sulfate, Copper Sulfate, Calcium Iodate, Zinc Sulfate, Zinc Oxide, Selenium Yeast, Sodium Selenite, Chromium Tripicolinate, L-Carnitine, Ethoxyquin and BHT (preservatives).

feed efficiency and rate of gain.

A unique formulation, which utilizes multiple sources of highly nutritious and digestible ingredients **resulting in excellent feed conversion with maximum pig performance.**

Carnitine and Chromium - Research indicates that chromium **can reduce backfat, therefore, improving overall carcass quality.**

Leanium 22% Starter contains chelated trace minerals for **improved bio-availability and are essential in carbohydrate, lipid, and protein metabolism.** Potassium chlo-

Swine (2652/2653)(continued on back)

ride ***provides a source of electrolytes***. Biotin, folic acid, and pyridoxine are included as ***a source of water soluble vitamins involved in energy and amino acid metabolism***.

Yeast sources ***block the colonization of pathogens, allowing microflora balance in the gastro-intestinal tract***.

Cheese Whey, a quality milk protein, is used ***to improve palatability and pig performance***.

Appetein® ***provides a source of immunoglobulins with excellent availability of amino acids***.

Leanium 22% Starter contains Micro-Aid® as ***an aid in the control of manure and/or ammonia odor***.

Feeding Directions

Weaning Age: 2-3 weeks - Use Kent SAV-R-IZED® Mini Nuggets™ or SAV-R-IZED Easy Wean® Nuggets for creep feed. Follow with Leanium 22% Starter until pig weighs at least 40 lb body weight.

3 Weeks or Older - Use Kent Leanium 22% Starter as the sole diet from the time pigs first start consuming feed until pigs are 40 lb body weight (start feeding 22% Leanium Starter prior to weaning).

It is a good management practice to change feeds slowly by blending products for 2-3 days; avoid abrupt changes, if possible.
