BoVantage™ technology **which can help promote a healthy rumen, stimulate dry matter intake, and provide immune system support.**

show bloom!™ **aids in hair growth, skin condition and coat quality along with superior muscle development and firmness. Helps in reaching full genetic potential.**

Feeding Directions

Feed as the sole diet to show cattle weighing 500 pounds or more. It is important calves be brought up on feed carefully and gradually to avoid acidosis. The amount fed will depend on frame size and desired rate of gain. It may be desirable to also feed 1 to 2 pounds of long stemmed hay per day. Consistent intake is a must for fast, uniform gains. Calves should be fed twice per day and at the same time.

show bloom!™ is a registered trademark of F.L. Emmert Co.
