

# Cattleflex™ 1600

25 lb pail

SHOW

Ractopamine hydrochloride ..... 1600 grams/ton

A supplement for finishing cattle. It can be fed for increase in weight gain, improved feed efficiency and increased carcass leanness in cattle fed in confinement for slaughter.

1. Pail offers a convenient size and storage package.
2. Feed source of Elanco Optaflexx™ (ractopamine hydrochloride).
3. Pellet form offers more consistent intake and less risk of feed loss.
4. 1/4 lb daily feeding rate for last 28 - 42 days on feed for 200 mg of ractopamine hydrochloride prior to slaughter.

## Guaranteed Analysis

Crude Protein, min .....8.0%  
Crude Fat, min .....2.5%  
Crude Fiber, max .....6.0%

## Mixing and Feeding Directions

**Important** - Thoroughly mix product into the complete feed according to the table below to obtain the proper concentration.

Cattleflex 1600 lb to add per ton of complete feed	Ractopamine concentration in complete feed, grams/ton*	Daily Intake of Cattleflex 1600 with (20 lb/hd/day intake) of complete feed	Daily Intake of Ractopamine with (20 lb/hd/day intake) of complete feed
12.5	10	.125 (2 oz)	100
25.0	20	.250 (4 oz)	200

Feed the complete feed to cattle fed in confinement for slaughter as the sole ration for the last 28 - 42 days on feed.

## Caution

Not for animals intended for breeding.
