

Overdrive™ PL450

25 lb pail

SHOW

Ractopamine hydrochloride .. 450 grams/ton

A supplement for finishing pigs. Feed a complete ration containing at least 16% crude protein for the last 45 to 90 lb of gain prior to slaughter.

- 1. Convenient for daily ration mixing of 1-2 ounces to give 4.5 grams or 9 grams of Paylean®.**
- 2. For increased weight gain, improved feed efficiency, and carcass leanness in finishing swine (150-240 lb bodyweight).**
- 3. Research indicates carnitine, chromium, and d-pantothenic acid can reduce backfat, therefore, improves overall carcass qualities.**
- 4. Contains complexed trace minerals for improved bio-availability and are essential in carbohydrate, lipid, and protein metabolism.**
- 5. Potassium chloride provides a source of electrolytes.**
- 6. Biotin, folic acid, and pyridoxine are included as a source of water-soluble vitamins involved in energy and amino acid metabolism.**
- 7. Yeast sources block the colonization of pathogens, allowing microflora balance in the gastro-intestinal tract.**
- 8. Cheese whey, a quality milk protein, is used to improve palatability and pig performance.**
- 9. Appetin® provides a source of immunoglobulins with excellent availability of amino acids.**
- 10. Flav-R-Ized® to improve palatability.**

Guaranteed Analysis

Crude Protein, min	41%	Selenium, min	0.9 ppm
Lysine, min	4.4%	Zinc, min.....	400 ppm
Crude Fat, min	3.2%	Vitamin A, min	15,950 IU/lb
Crude Fiber, max	3.6%	Vitamin D, min	2,100 IU/lb
Calcium, min	2.5%	Vitamin E, min	90 IU/lb
Calcium, max	3.5%	Menadione, min	6 mg/lb
Phosphorus, min	1.5%	Riboflavin, min.....	13 mg/lb
Salt, min	1.2%	Niacin, min	80 mg/lb
Salt, max	1.7%	d-Pantothenic Acid, min	75 mg/lb
Chromium, min	600 ppb	Vitamin B-12	0.05 mg/lb

Feeding & Mixing Directions

<u>Batch Size, lb</u>	Daily Ration		
	<u>2000 lb</u>	<u>6.25</u>	<u>6.25</u>
Corn, lb	1370	4.29	4.29
Show Pig Supplement, lb	590	1.84	1.84
Overdrive PL450	40 lb	2 oz	1 oz
Crude Protein, %	18	18	18
Paylean®, gm/ton	9	9	4.5

Feed the above diets as the sole feed to finishing hogs with superior genetics capable of maximizing lean tissue deposition from 150 lb to market. These amino acid-fortified diets are designed specifically for pigs raised in confinement under excellent management.

A 1 oz measuring scoop is enclosed in each pail to ensure the correct level of product is mixed into the daily ration.

Caution

Pigs fed Ractopamine HCl are at increased risk for exhibiting downer pig syndrome (also referred to as “slows,” “subs,” or “suspects”). Pig handling methods to reduce the incidence of downer pigs should be thoroughly evaluated prior to initiating use of Ractopamine HCl. Do not feed to breeding swine.
