

Show Lamb Complete 18DQ

Product Description

An 18% protein, texturized feed for growing and finishing show lambs. It is a diet with a very specific combination and ratio of ingredients designed to optimize the genetic growth potential of sheep.

Features and **Benefits**

Steam-rolled and cracked corn – **improves carbohydrate availability, releasing more energy for gain.**

Steam-rolled barley – **provides unique fermentation and a source of energy to improve gain and facilitate proper finish.**

Oats – **improve diet texture, promoting appetite and gain, while providing a unique combination of digestible fiber and energy.**

Multiple protein sources (including fish meal) – **provide for maximum muscle expression and development, plus high-quality wool production.**

Dehydrated alfalfa meal – **digestible fiber source provides delayed energy release, calcium, phosphorus, and vitamins.**

High-vitamin levels – **improve energy and protein metabolism, feed utilization, immunity, and overall health to help fight stress in show environments.**

show bloom![™] – **improves palatability and feed digestion, leading to increased gain and feed efficiency while promoting stable rumen fermentation.**

Sodium molybdate – **reduces the likelihood of copper toxicity.**

Ammonium chloride – **aids in the prevention of urinary calculi (water belly).**

Molasses – **increases palatability and intake for improved acceptance and average daily gain.**
